

ABERCROMBIE DEVELOPMENT PROJECT**PEDESTRIAN AND CYCLIST ACCESS STRATEGY FEEDBACK FORM**

As part of the NSW Planning Assessment Commission's conditions of approval for the development of the Abercrombie Development Project, The University of Sydney is committed to providing \$2 million dollars for upgrades in the Darlington precinct.

The upgrades will increase safety and convenience for pedestrians and cyclists in the area and will complement other improvement works being planned by Council. The Department of Planning & Infrastructure has specified that these works are to have a direct relationship to the University's Abercrombie project. The University of Sydney has contracted *Parking and Traffic Consultants* to identify some initial pedestrian and cycle opportunities.

Whilst this work is specific to the Abercrombie project, the University is also currently preparing a Campus Improvement Program 2014-2020 (CIP). The CIP will address plans to prioritise and upgrade vehicle, cycle and pedestrian facilities through the Darlington and Camperdown campuses and to link these with the City of Sydney's planned works.

We also invite your suggestions on the development of these improvements.

We would like to hear what you think and this is a great opportunity for you to provide valuable feedback to help build on both the City of Sydney's and the University's goals to support residents' desire to engage in walking and cycling as a lifestyle choice and to increase the amenity and functionality of the surrounding neighbourhood.

The University of Sydney greatly appreciates your participation. Please return this form to Campus Infrastructure and Services by 20 May, 2013.

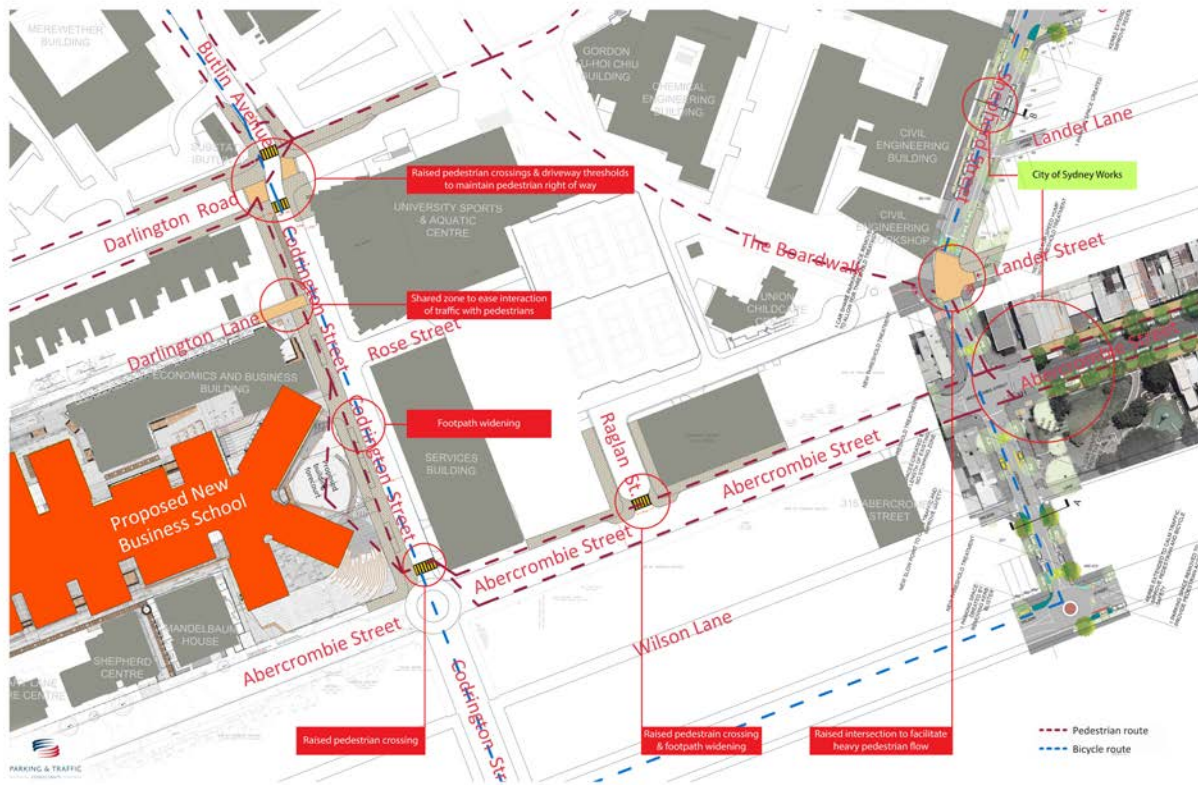

For further information please contact local.community@sydney.edu.au

For general information about the Abercrombie Precinct development please visit:
sydney.edu.au/abercrombie_precinct

We invite you to review the proposed upgrade opportunities identified by *Parking and Traffic Consultants* and to please indicate your order of preference, with **1** being the most preferred, and **6** your least preferred.

ABERCROMBIE PRECINCT, DARLINGTON
2. Opportunities Specific to Abercrombie Business School Project

- ☐ Raised pedestrian crossings & driveway thresholds to maintain pedestrian right of way
- ☐ Shared zone to ease interaction of traffic with pedestrians
